# The game is LUNAR MODULE

## Blitz Pong with Phantom Ball

San Mateo, California

# MODEL 911

**Lunar Module** has many special features that make it better entertainment and more profitable than any video equipment on the market. Its handsome and elegant contemporary cabinets fit into the most sophisticated lounges, country clubs, hotels, etc.

**Lunar Module** is an exciting one, two or four player game with two balls bouncing from side to side off the four borders of the screen. The object of the game is just like real table tennis. Try to out-maneuver the other player's paddle and collect points; or for just a single player to beat the machine.

**Features**

- Color Display Video Screen
- Adjustable paddle size – allows selection of amateur or pro sizes
- Phantom Ball: appears on pro mode, two balls on the screen, one real and one that moves at random and passes through the paddles, making it the most challenging pong game available
- Blitz button accelerates ball to outmaneuver opponent
- 1–2–4 players -- 25¢ for 1 and 2 players; 50¢ for 4 players
- Bright paddles and balls appear to float on dark screen
- Modular circuitry makes servicing fast and simple
- Also available in upright model
